

Watch It Now

Autograph

I don't need to give an explanation now
I am gonna change the situation now
You dragged me to the bottom of the ocean now
I am breaking free, you better

Watch it now
Watch me now
Watch it now
Watch me now

Times will always change there's nothing you can do
Now this time I'm gonna turn my back on you
I am gonna cut the strings and let you go
I will strike you back just thought I'd let you know

Watch it now
Watch me now
Watch it now

Watch it now
Watch me now

Watch me now
Watch me now
Watch me now

I am gonna make you eat the words you say
I will cut you loose and watch you fade away

You better

Watch it now
Watch me now
Watch it now
Watch me now
Watch it now
Watch me now
Watch it now
Watch me now
