The Science of Imaginary Solutions

Autolux

Though you thought you won the race
looking up at such a waste
A perfect day with _____
A Pretty pictures just for me
Blinded by my imagination
Everything much better now
Eyes fixed on a stolen face
The copycats are all in place

It's all over now
It's all over now
It's all over now for you

Your ship went down tragically
You try to find yourself again
Eyes fixed on the human race
Now everyone thinks your dead
Today

It's all over now
It's all over now
It's all over now for you

It's all over now
It's all over now
It's all over now for you

High as the moon deep as an ocean
You fall apart to pieces hit the ground
You pick up all your reflections
keep yourself from being so
Faking fake everybody you know
It looks like you been exposed
