

New Land

Avatar

A new world, awaits
I'm flying without an escape plan
Breakthrough the gate
Take up, take me on
Breakthrough the sky I will scare you!

I woke up too late
Danger ahead and behind us
They come and create
Here comes the dark, causing the chaos!

Fly beyond the oceans
Trying to find our place
Home is somewhere out there
Somewhere you'll be safe
Sleep my child and dream of the new land!

You won't be alone
Remember you've all got each other
Crack through the stone
The silverest time will all be alright!

Fly beyond the oceans
Trying to find our place
Home is somewhere out there
Somewhere you'll be safe
Sleep my child and dream of the new land!

You were promised
Soon we'll be departed
Sleep until we reach the new land

You were promised
Soon we'll be departed
Sleep until we reach the new land

You were promised
Soon we'll be departed
Sleep until we reach the new land

Fly beyond the oceans
Trying to find our place
Home is somewhere out there
Somewhere you'll be safe

Fly beyond the oceans
Trying to find our place
Home is somewhere out there
Somewhere you'll be safe
Sleep my child and dream of the new land!
