

# Tonight The World Dies

Avenged Sevenfold

**Emi Edim**

4x

**C Emi**

Lost the meaning of our stay

**C Emi**

Learn to live another day

**C Emi**

Doubt the choices that we've made

**Ami**

I know that we can't hide our shame

**G**

It's only in disguise

**Emi Edim 2x**

**C Emi**

Drowning in our own debris

**C Emi**

Fool our thoughts as though we're free

**C Emi**

lose your eyes so we can see

**Ami**

The depth of all we mean to be

**G**

If only in my eyes

**Emi C**

I don't mind

**Emi C**

Mother cries

**Asus2**

Find me on my better days

**C**

To lose it once again

In a way

**Emi Edim 2x**

**C Emi**

So try and love me while you can

**C Emi**

And take the time to understand

**C Emi**

As long as I can touch your face

**Ami**

You know I'll never leave this place

**G**

If only in my mind

**Emi C**

I don't mind

**Em C**

Mother cries

**Asus2**

Find me on my better days

**C**

To lose it once again

**Asus2**

But I seem to find no better ways

**C**

To consciously pretend

**E**

**H**

Silence all I wanna say

**C**

Tendencies to run away

**D**

I run away with you tonight

**E**

**H**

Launder all my sins away

**C**

And just like that mistakes are made

**D**

**Emi**

You know tonight the world dies

**C**

I don't mind

**Emi**

**C**

Mother cries

**Asus2**

Find me on my better days

**C**

To lose it once again

**Asus2**

But I seem to find no better ways

**C**

To consciously pretend
