

When The Sun Burns Out

Avion Roe

Let the rain fall down
Fall into the ocean
With every breaking sound
I've died inside a million times too
Let it all come down
With every single moment
Leading you there to hold your ground
Can you follow me?

Can you return to the real world?
Can you live when the sun burns out
And bury me, will you marry me and stray
Away in vain

Let the rain fall down
Fall into the ocean
I'll never make a sound
I've died inside for you
Let it all come down
A sin is just a moment
Leading you to there to turn around
Can you help me feel like I am alive

Can you return to the real world?
Can you live when the sun burns out
And bury me, will you marry me and stray
Away in vain
In the real world,
Can you live when the sun burns out
And bury me, will you marry me and stray
Away in vain

If I move carefully
Will you use care with me?

Can you return to the real world?
Can you live when the sun burns out
And bury me, will you marry me and stray
Away in vain
In the real world,
Can you live when the sun burns out
And fade away we live in vain
Stray, we live in vain,
Vain
