Take It

Avril Lavigne

Just take it take it
I can't take it take
I know what you do
Flash me
The ways it's done
Impolitely
Trying to find some alone time
No room to compromise

Just take it take it
I can't take it take it

Send your picture to a magazine
The page is not true
Photography
Is that what you always wanted to be
I'd be worried for you
Sometimes
Gonna try
Run and hide
Get away from this
I'll get by
In this life
This time

Take your best shot
And press me
Write a fictional story
For your fee
Try to get the world
To believe
Shocking headline surprise

Just take it take it
I can't take it take it

Is that what you always wanted to be
I'd be sorry for you
Sometimes
Gonna try
Run and hide
Get away from this
I'll get by
In this life
This time

You see me
I see you
You're over there
You see me
I see you

Is that what you always wanted to be
Well I'd be sorry for you

Sometimes
Gotta try to
Run and hide
Get away from shit

Sometimes
Gonna try
Run and hide
Get away from this

Well I'd be sorry for you
