

Eagle Flies Alone

Axe

Lonely nights out on the highway
Dreamin' of a girl I left a million miles ago
The thunder and rumble of these engines
Write out my story and they spill it on the road

Some say I'm only causin' trouble
But the truth is I've ridden through that rubble
I know the eagle always flies alone

I'm lookin' for somethin' to believe in
Wonderin' just how far I'll have to go
The rain stings and keeps my eyes wide open
And the pain brings the water that washes off my soul

Some say I'm only causin' trouble
But the truth is I've ridden through that rubble

I know the eagle always flies alone

I don't know where it is I'm goin' and I don't care
Maybe I won't like it when I get there
But the road seems to wander on forever
With the feeling of the wind blowin' in my hair

Some say I'm only causin' trouble
But the truth is I've ridden through that rubble
I know the eagle always flies alone

Some say I'm only causin' trouble
The truth is I've ridden through that rubble
I know the eagle always flies alone
