

Life's Just an Illusion

Axe

Where are you going my friend?
Have you learned yet why you are here?
Is that sadness in your eyes
Tears of sorrow or tears of fear?
Lift your head, you know, you've got to try
Try to find another way
Keep in mind no matter what you do
Tomorrow is yet another day
Life's just an illusion
Don't fill yours with pain
Pain leads to confusion
Confusion will drive you insane
Quickly life will pass us
So don't fret over where you have been
Time will wait for no one
So set a goal and start over again
Friends will help, the asking's all you do
They will help you on your way
With a smile you know you'll always find
Tomorrow is yet another day
Life's just an illusion
Don't fill yours with pain
Pain leads to confusion
Confusion will drive you insane
Life's just an illusion
Don't fill yours with pain
Pain leads to confusion
Confusion will drive you insane
