Axehammer

Flesh, flesh, flesh, flesh  
Flesh machine

Welcome to future world  
And all the lies  
We're only living to be victimized  
Welcome to future world  
And broken hearts  
And all your dreams that have been  
Torn apart

Flesh machine  
Flesh machine

There's truth in future world  
But you have to buy it  
We're all just working for the beast  
No love in future world  
No good in trying  
We feed the looters at their feast

Welcome to the days  
When all your dreams and sorrow  
Finally fade away  
Welcome to the days

Welcome to the days  
When all your bright tomorrows  
Are finally stripped away  
Welcome to the days  
Flesh
