

# Windrider

Axehammer

A darkened cast has fallen  
On the streets of the city  
The shadows on the bodies  
Where they lie  
The fires of death  
Have come and gone  
There's no one left to pity  
But one brave man  
Escaped the grave tonight  
Windrider

Fire and death has fallen  
Sky is full of ashes  
Blinded out the light of the sun  
Death is moving quickly  
On those who have survived  
Cutting through the darkness  
Life a knife

Oh oh windrider, windrider  
Death comes out tonight  
Oh oh windrider, windrider  
Death comes out tonight

Death and destruction  
The only thing in sight  
Riding through the darkness  
With no light  
Moving faster in the rain  
Trying to escape the pain  
The hounds of hell  
Are on my heels again

Oh oh windrider, windrider  
Death comes out tonight  
Oh oh windrider, windrider  
Death comes out tonight

Oh oh windrider, windrider  
Death comes out tonight  
Oh oh windrider, windrider  
Death comes out tonight

Fire and death has fallen  
Sky is full of ashes  
Blinded out the light of the sun  
Death is moving quickly  
On those who have survived  
Cutting through the darkness  
Life a knife

Oh oh windrider, windrider  
Death comes out tonight  
Oh oh windrider, windrider  
Death comes out tonight
