

# Thinking About You

Axwell & Ingrosso

Think about love, think about hate  
Think about gain fame, why I'm always late?  
Think about tonight, what I'm gonna do  
But I just can't concentrate cause I'm thinking about you

Think about money, think what I own  
Spent it on a car with a cool, cool stereo  
And I'm sitting in traffic, wishing it would move  
Should be thinking about a chopper, I'm thinking about you

Thinking about you  
Thinking about you now  
Think about your touch, think about your kiss  
Feeling like a kid again, total utter bliss

Thinking about you  
Thinking about you now  
Think about your touch, think about your kiss  
Feeling like a kid again, total utter bliss

Think about my holidays, think of the raves  
Think about dancing and sailing in the waves  
Now think about the time and the place where we met  
Swimming in the sea and your hair was all wet

Think about colours, think about sex  
Think about your body, how it moves in that dress  
Think about your touch, think about your kiss  
Feeling like a kid again, total utter bliss  
Total utter bliss  
Total utter bliss  
Total utter bliss  
Total utter bliss

Thinking about you  
Thinking about you now  
Thinking about you  
Thinking about you now  
Thinking about you  
Thinking about you now  
Think about your touch, think about your kiss  
Feeling like a kid again, total utter bliss

Thinking about you  
Thinking about you now  
Think about your touch, think about your kiss  
Feeling like a kid again, total utter bliss
