

Open Your Heart

Axwell

Just open your heart

Your face to my face
Never too late
Your face to my face
Just tell me anyway
Your face to my face
With seconds away
Your face to my face
Just open your heart

Promise me your promise it
Your face to my face
I don't wanna stop right now
Don't take them away
'Cause promises are promises
Just tell me anyway
It's never too late
With seconds away
Just open your heart
