

Like a Sphinx

Axxis

Green horses on black rush
Are standing all around
White shadows of red clouds
Is all I dream about

Can see the trees are blue
Don't wanna see like you
Everything is clear - where is your fantasy?

Oh, I invite you to my wonderland
Where everything is possible all the time
I don't expect that you understand
But miracles can change your world like mine

I'm gonna live like a sphinx
Spreading my wings
Let miracles rain down on you
In the temple of dreams
The fantasy streams
Break out of the circle of life

The flowers big like trees
Are feeding green red bees
A land where snow is pink
Here I can dream and think

All pictures of my life
Are painted in my mind
All colours that I see
They shine for you and me

Oh, I invite you to my wonderland
Where everything is possible all the time
I don't expect that you understand
But miracles can change your world like mine

I'm gonna live like a sphinx - spreading my wings
Oh, I invite you to my wonderland
Where everything is possible all the time
I don't expect that you understand
But miracles can change your world like mine
