

## Balls Of Steel

Aynsley Lister

You know I got what it takes  
But you tell me why the hell am I still standing here  
I've had my fair old share of bad luck baby  
Now I'm a stronger man I ain't got no fear  
they say you gotta fall down to grease the wheel  
I'm standing here strong now I got balls of steel

I ain't been thru the mill but I've been damn close  
I could tell you stories that you wouldn't wanna know  
& I wouldn't change a single thing  
I am what I am if you don't like it I can show you the door

not for the faint hearted                      you gotta know the deal  
I'm standing here strong now I got balls of steel

No I ain't
