

# I Believe

Aynsley Lister

I had a dream when I was young  
Of what I wanted for me  
Of what I'd do when I turned 21  
And now I'm there I know that nothing comes free  
Now I've been trying so hard  
For what I want and what I need  
And I believe, I believe

Yes I believe, I believe

You've gotta know what you want  
Keep the faith my friend  
'Cause I'm only half way there  
Oh and I can't see the end  
Everybody knows what I mean  
'Cause everybody must have a dream  
But you've gotta believe

'Cause I believe, I believe

Once upon a time you know a wise man told me  
He said tell me your dreams and I'll see what I can do  
But he never told me yeah, but he never told me no  
And listen not just yet but it will come to you  
And it will come to you
