

Other Part of Me

Aynsley Lister

When I'm feeling down
You know how to pick me up
Patience running out
You've always got enough

When I'm running into
A head on wind
When I'm destined to lose
You help me to win
One without the other
Is just incomplete
Yeah, you're the other part of me

When I'm all alone
You're not around
I feel like something's missing, baby
Down in the lost and found, yeah

When I'm stuck in reverse
You ease my mind
When I can't find the words
You've always got the time
You know we go together like the milk in your tea
Yeah, you're the other part of me
You're the other part of me
You're the other part of me, yeah
Yeah baby, oh yeah

Oh you know you always have the answers
When I turn to you
When I'm chasing round in circles
You know just what to do
You know we go together like the rivers and the sea
You're the other part of me, yeah, oh yeah
