

Soundman

Aynsley Lister

Well excuse me please
You're standing in my way
I don't care who you are
And I don't care what you say
They call me the soundman
And I'm having a real bad day

Well hey you over there
Turn that damn thing down
Ain't you been taught before
You don't need it that damn loud
Hey I'm the soundman
And I'll pull your plugs right out

Don't you know, don't you know
That I've got a control over you
Don't you know, don't you know
That I've pulled the plug on you
Hey

Flick that switch, turn that down
We'll set it on number two
Well that sounds alright to me
Don't care what you normally do
Hey I'm the soundman
And I know a damn sight more than you

Hey 'cause I'm the soundman and I know God damn more than you

Don't you know, don't you know
That I've got a control over you
Don't you know, don't you know
That I've pulled the plug on you

Don't you know, don't you know
That I've got a control over you
Don't you know, don't you know
That I've pulled the plug on you
Yeah yeah
