

# Straight Talkin' Woman

Aynsley Lister

I got a straight talkin' woman  
She's gonna give it to you straight  
I got a straight talkin' woman  
She's gonna give it to you straight  
She'll tell it how it is  
And she means every word she say

Some like their women un-opinionated  
But impartial, it's more complicated  
But a straight talkin' woman  
The kind I understand  
Beat about no bush, no  
She'll let you know just where you stand, alright

She don't take no jive from no sharpened tongue  
She tells it how it is, she gets the job done  
Straight talking woman, she knows just where it's at  
To fight her corner, you'll wanna give the best that you got

Oh, I got a straight talkin' woman  
I got a straight talkin' woman  
Straight talkin' woman  
I got a straight talkin' woman  
She'll tell it how it is  
And she means every word she say

Well, I got a straight talkin' woman  
Got a straight talkin' woman  
I got a straight talkin' woman  
Oh, I got a straight talkin' woman  
Yeah, she'll tell it how it is  
And she means every word she say

Oh, you know, she tells it how it is  
Means every word she say  
She tells it how it is  
And she means every word she say

Oh, I got a straight talkin' woman  
A straight talkin' woman, yeah
