

Sugar

Aynsley Lister

Well you taste so sweet baby
You're like chocolate covered cake
You give me all I can eat baby, serve it up any way
I dip my fingers in your honey
Any time of the day

The way you move your hips baby
The way you shake that thing
Oh with your cherry flavour lips
And your marzipan skin
I get so hooked on your sugar baby
I can't keep my craving in yeah

When I'm not around you
I get to thinking all the time
'Cause you know you got something
To drive me outta my mind

Early in the morning
Late in the evening too yeah
I got a sweet tooth for ya baby
Sweeter than honey dew oh yeah
And with all that sugar baby
You know just what to do
Sugar sugar baby
I can't get enough of you
