Time

Aynsley Lister

You never know just how long you've got
So don't let it go to waste
Time will come and pass you by like a shot
If you can't hold the pace

A few more greys, a few more lines appear
When did that come about?
All in all we don't have all that long
Time quickly running out

Don't let it run away
Run away
You can't re-run the track
Can't get it back along the way
So change tomorrow for today

All the plans that you mean to make
So called "problems" slow you down
The bucket list shouldn't have to wait
Life is for living now

Friends you've had no longer around
So many things you never said
Nobody knows when the day will come
You gotta live without regret

Don't let it run away
Run away
You can't re-run the track
Can't get it back along the way
So change tomorrow for today

Don't let it run away
Run away, oh run away
Run away
