

Underneath the Water

Ayria

Body's cold, must've been dark
You were vulnerable and everyone knew it
He was struggling, you can't deny it
They asked you not to do this
You walked on by them
I wished I could've saved you
I couldn't find you
And now you're disappeared

You will stay left unchanged underneath the water
Just close your eyes, just close your eyes

There was no time
The things we never said
There's never time and now it's all pointless

He was struggling, you can't deny it
They asked you not to do this
You walked on by them
I wished I could've saved you
I couldn't find you
And now you're gone forever

You will stay left unchanged underneath the water
Just close your eyes, just close your eyes

I knew you well, they knew all the things
You never told them
It's in your eyes, it's in your eyes

You will stay left unchanged underneath the water
Just close your eyes, just close your eyes

I knew you well, they knew all the things you never told them
It's in your eyes, it's in your eyes

Just close your eyes
