

Street lights

AZIATIX

Beautiful street lights
I want to be like you
Lighting up the sky
Let's light it up tonight
Beautiful street lights

Make my dreams come true
Come and let it shine tonight
Let's light it up tonight

It's my night my highlight
Living that livin that high life
Like I'm hittin that hittin that light light
All day every day day night night
The sun goes down I brings the eve
You can meet me on the street
And we all gon' set it
Take my hand and
You won't regret it
I'll spark it off and
Then we all gon' get it

I want to make this night
Here last forever
Just keep the music playing
On and on ohh

Beautiful street lights
I want to be like you
Lighting up the sky
Let's light it up tonight
Beautiful street lights

Make my dreams come true
Come and let it shine tonight
Let's light it up tonight

Flood the avenues
Can't break us down
We're shatterproof
Let us hit the dance floor
Cuz we have to groove
From early night to afternoon
It's like 24 365 we get's live
Our shapes in tip top ride hard
All the way with no pit stops
Top of the charts #1
Can't flip fop bang

Beautiful street lights
Shining down on me
Got me feeling right
Ready for the take off
Like a shooting star
Waiting for the green light
We'll be on our way
To the milky way

Beautiful street lights
I want to be like you
Lighting up the sky
Let's light it up tonight
Beautiful street lights

Make my dreams come true
Come and let it shine tonight
Let's light it up tonight

Beautiful street lights
Shining down on me
Got me feeling right
Ready for the take off
Like a shooting star
Waiting for the green light
We'll be on our way
To the milky way

Beautiful street lights
I want to be like you
Lighting up the sky
Let's light it up tonight
Beautiful street lights

Beautiful street lights
