

Superstar

AZIATIX

Let's get away from these city lights, where nobody knows
And you can be my superstar, girl let it shine tonight

Let's get away from these city lights, where nobody knows
And you can be my superstar, girl let it shine tonight

Superstar of the century
You alone can just light up the sky
Let your shine give sight to the blind
Superstar status my eyes on the prize
Girl, every single step you take is on the that red carpet
Straight goddess, main target
For that lights, camera, action
Perfect pose, and all attention is on the main attraction
Downtown New York, downtown L.A.
We rocks it all day
Cruise to wherever that floats our forte
Fine dine, fine wine, grand suite all paid
The city lights ain't enough it dreams for your complexion
So we can both lay back, sit still on big wheels
And let the city streets know the feeling of perfection

Let's get away from these city lights, where nobody knows
And you can be my superstar, girl let it shine tonight

Cuz' on another note, life's short like staccato
So tonight we pop bottles like there's no tomorrow
Do it real B.I.G. for the borough
Smooth dress fur coats, soj to the Merlot
And you gotsta' floss
5 star Porsche with the tops cut off
Your wrist brings chills like the top, up north
First place, these other chicks are not on course
Sky cam, bird's eye view at the new spot
We skyline high, fly penthouse rooftop
And then I'll put diamonds on your ear
My game on the money from every word you hear
Yeah, hope you know we're hittin' big cream
NASDAQ screen, HD clean, big dreams
All eyes on the superstar, I'll make a wish here
We're making moves this year let's get it

Let's get away from these city lights, where nobody knows
And you can be my superstar, girl let it shine tonight

Let's get away from these city lights, where nobody knows
And you can be my superstar, girl let it shine tonight

Whenever, wherever, any weather
We got it the best, and it can't get any better
Let's take it universal, and conquer cities
And never lose my way from the light, 'cuz a star is with me
Doors open up from your glamorous entrance
Too much for the average pension
We takin' the game girl, we gon' pop
You a star, it's only right for you to be on top

Let's get away from these city lights, where nobody knows
And you can be my superstar, girl let it shine tonight

Baby you're my superstar, show the world just who you are
You are, you're my superstar, baby girl you're my superstar
I like the way you move, your hair, your eyes, your fancy shoes
You are, you're my superstar, baby girl you're my superstar
