

Walls fall down

AZIATIX

It's just you and I against the world
There's fire burning in my heart
If only you believe in time
We can make the walls fall down

Done with my 9 to 5
Never felt so alive gonna get us
All together
It's going down tonight
It's time to let it ride
I'm going all
In tonight gotta take it
All the way and we're gonna
Break through the

I'm ready for my redemption
I'm breaking through the wall dog
Stress filling tensions
I'm going in hard like raw dog
So long to no job Oh God
It's the modern day Mozart
I'm bringing that heat
Warm up that cold heart
Don't fold your cards
Just play your part
It's time to say bye bye
Why try to test pac man
When it's time for fight night
We can share the lime light ok
Here's a little night light then
It's lights out boy night night
Your vision is sharp but
You can't cut it flow and
The voice got my stamp on it
I myself decided to bank on it
Straight money honey
Gold diggin' you can't card it

It's just you and I against the world
There's fire burning in my heart
If only you believe in time
We can make the walls fall down
We can make the walls fall down
We can make the walls fall down

I'm the real deal no bionic
Bringing the pain boobonic
You lack the logic
Let me take you all to college and
Help you fill up that empty noggen
It's go season 4 seasons
Why the hell should
I stop there's no reason
I'm making rain making it snow
I'm international in all regions
So hot fans in every area code
Nothing but love they feeling my flow

Bring me back to where I was at
Never that to the top no matter
Where ever I go all eyes on me
Which means both love
And the hate get's hard in the paint
Go hard or go home take the roof
That's over my head
You heard what I said
I'm loving the pain

It's just you and I against the world
There's fire burning in my heart
If only you believe in time
We can make the walls fall down
We can make the walls fall down
We can make the walls fall down

Let me take you to a place
I know you want to go
I'll show you the fire
That's burning in my soul

We're gonna stand up together
Nothings gonna break us down
Stand up together and
We can make the walls fall down
We can make the walls fall down
We can make the walls fall down
We can make the walls fall down
We can make the walls fall down
