

# One And One

Aztec Camera

One and one is one I hear  
But it breaks my heart to come so near  
And find division standing in our way  
As London burns I lie awake  
And wrestle with this passive state  
But a broken heart is useless in these days

When I close my eyes to trouble  
Baby I see you  
And now I have the need to double  
Everything I do  
So I close my eyes and make a wish  
Yeah, dream a dream for me  
That one and one will someday be free

Oh boy I know  
The crucial blow  
They deal us every day  
I feel it too

But need for you  
To chase your blues away  
But if my heart  
Should come apart

My love should turn inside  
I'll understand  
You're just a man  
I'll still be on your side
