Things I would do for my girl

[Kelly:]

(Here we go, B5)

Pick you up in the middle of the night
Come through and say I'm wrong in the middle of a fight
Say I love you with a kiss on the forehead
More red roses, plus you gotta see where my home is
No love for the freaks tryna temp me
South beach breeze 2 keys to the Bentley
Hold hands, talk about my dreams
Tell me your plans
Anything you want, girl put it on your man
Tell me all about the things you like
I wanna be the one to treat you right
I wanna be the one that come when you call
Drop funds at the mall
Wanna be the one to freak you right (Freak you right)
Everything I would do for you
Every move, I'd move for you
Every song I sing, we can talk about a ring
But first I gotta prove to you

[Hook:]

The things I would do for my girl
Give up all the ladies that I've been seein lately
Be my only baby
The things I would do for girl
Take you to the hot spot
Pull up in the soft top
Watch when all their eyes drop
