

## Up the Morning

Babysambles

Up the morning, up, up the morning

Up the morning, up, up the morning  
Up the morning, up, up the morning  
Up the morning, up, up the morning  
Up the morning, up, up the morning

Everytime I see your face  
It makes me sad, it makes me chase  
Chase my love across the world  
Even though you're not it's taste  
Simple, evil, I don't walk alone

Everytime I see your face  
It makes me cry, it makes me wait  
Waited far too long  
And you were over me  
But it's ok, cause I know, where you will go, I will go

Up the morning, up, up the morning  
Up the morning, up, up the morning  
Up the morning, up, up the morning  
Up the morning  
Up the morning  
Up the morning, up, up the morning  
Ayyyyyyyyy

And if I, if I could go  
Back in time  
And if I, if I could go  
Back in time  
I'd go to show, what did I show?  
I would not show  
The nights and the fights when I came rumbling out the door  
Well what was I supposed to do?  
Where's a boy supposed to, supposed to go?

Up the morning, up, up the morning  
Up the morning, up, up the morning  
Up the morning, up, up the morning  
Up the morning, up, up the morning  
Up the morning, up, up the morning
