

Grand Illusion

Bad Boys Blue

If you wanna love somebody
How about cruisin' in the night
If you wanna love somebody
Why don't you hold a stranger tight
These eyes might amuse you
Don't let them abuse you, no, no

Welcome to the grand illusion
Look what you have found
Love is not an institution
And lonely hearts go around and around
Love is just a grand illusion
When you're all alone
There is only one conclusion
So find a love of your own

If you wanna love somebody
Would it be right to pay the price?
If you wanna love somebody
Maybe there is no paradise
These eyes might amuse you
Don't let them abuse you, no, no

Welcome to the grand illusion
Look what you have found
Love is not an institution
And lonely hearts go around and around
Love is just a grand illusion
When you're all alone
There is only one conclusion
So find a love of your own

Don't believe in neon lovers
Go and find a heart that covers
All your wishes all your dreams
Life's not really what it seems
When you go out there tomorrow
You might find that day is borrowed
I told you the answer's easy
Shout it out
Shout it out

Welcome to the grand illusion
Look what you have found
Love is not an institution
And lonely hearts go around and around
Love is just a grand illusion
When you're all alone
There is only one conclusion
So find a love of your own
