

Apocalypse Whenever

Bad Suns

Life tried to break me, then life fell apart
Love me or hate me, I'm still in your heart
Life's not been plenty, but I'm still not ready to die
I've never felt so alive
Alright

I sail the seas of apathy
In search of someone far from me
I used to call you after school
I'm always crawling back to you
Love is so hard to find and to lose

Apocalypse whenever, I
Can't live in fear forever, right?

Life tried to make me somebody I'm not
Can't separate from me, I'm all I've got
Life's not been plenty, but I'm still not ready to die
I've never felt so alive
Alright

I practice my apologies
I blame everything on astrology
I faced my fears, I chased my dreams
My demons all caught up with me, ooh
Thought I put up a good fight
Alright

Apocalypse whenever, I
Can't live in fear forever, right?

Life tried to take me down, love broke my fall
Made my mistakes, have I learned from it all?
Life's not been plenty, but I'm still not ready to die
I've never felt so alive
Alright

Apocalypse whenever, I
Can't live in fear forever, right?
A moment of reflection, are
We going in the right direction now?
Are we doomed?
