

# Swimming in the Moonlight

Bad Suns

We're outside, it's cold enough to see your breath  
You don't mind, undressing 'til there's nothin' left  
I feel the fire, it's comforting, it lights you up  
I see everything I need right here and

Now we're swimming in the moonlight

Here outside, it's just you and I  
I couldn't love you more if I tried  
It's crystal clear as we disappear  
Swimming in the moonlight

Though we're moving quickly it feels I've waited all my life  
Until this moment I'd only dreamed of paradise  
For hours without a single word, we hold on tight  
If nothing's perfect, you and I are nothing tonight

Now we're swimming in the moonlight  
Now we're swimming, swimming in the moonlight

Here outside, it's just you and I  
I couldn't love you more if I tried  
It's crystal clear as we disappear  
Swimming in the moonlight  
Here outside, it's just you and I  
I couldn't love you more if I tried  
It's crystal clear as we disappear  
Swimming in the moonlight

You have no clue how gorgeous you are  
Thank God, oh  
In a time when nothing's right  
You shine a light  
You're my everything, everything, everything

Here outside, it's just you and I  
I couldn't love you more if I tried  
It's crystal clear as we disappear  
Swimming in the moonlight  
Here outside, it's just you and I  
I couldn't love you more if I tried  
It's crystal clear as we disappear  
Swimming in the moonlight

You have no clue how gorgeous you are  
Thank God, oh  
You're the moon, my blue lagoon, my favorite tune  
Everything, everything, everything
