

Take My Love And Run

Bad Suns

"Drop dead" you said this feels so liberating, take my love and run

Never been fond of instigating, take my love

Oh you took my love and then you left, called it your own

Yeah you took my love, of course you left, I should have known

"Drop dead" you said this feels so liberating (take my love and run)

I've never been fond of instigating

Oh, take my love and run and no I won't come back

Yeah, take my love and run and no I won't come back

Grab my back and bring me into the ocean, take my love and run

The tide rolls in void of all emotion, take my love

Oh, break my heart, disintegrated what would be

Yeah, take my love, you might as well what's it to me

"Drop dead" you said this feels so liberating (take my love and run)

The tide rolls in void of all emotion

Oh, take my love and run and no I won't come back

Yeah, take my love and run and no I won't come back

Oh, take my love and run and no I won't come back

Yeah, take my love and run and no I won't come back

"Drop dead" you said this feels so liberating

The tide rolls in void of all emotion

Oh, take my love and run and no I won't come back

Yeah, take my love and run and no I won't come back

Oh, take my love and run and no I won't come back

Yeah, take my love and run and no I won't come back

You took my, you took my, I won't come back

You took my, you took my, I won't come back
