

When the World Was Mine

Bad Suns

Drive me crazy
I'd go anywhere you take me
1980s summer soundtrack, lighting jays
We were eighteen
Nearly out of our minds

When the world was mine
When the world was mine

I don't care what we do
Can I kick it with you?
Like it hasn't been forever
I don't care what we do
Come and cut me in two
Like I have nothing to hide

We could rule the world
We could lay in bed
Say all of the words we left unsaid

I don't care what we do
Are you feeling it too?
Like it hasn't been forever

Acting shady
LA heatwave
Lying poolside
You persuade me
Nothing's wrong
And then you're gone
Left me to daydream
You were cold as ice

When the world was mine
When the world was mine

One more round
Knock me down
I'm weightless

Hold on now
Let's slow down
Let's face it

I never know when to leave it alone
I never know when to go

Still I miss those times
When the world was mine

I don't care what we do
Can I kick it with you?
Like it hasn't been forever
I don't care what we do
Come and cut me in two
Like I have nothing to hide

We could rule the world
We could lay in bed
Say all of the words we left unsaid

I don't care what we do
Are you feeling it too?
Like it hasn't been forever

Say it out loud
If you want me act now
Come on
Say it out loud
If you want me act now
Come on
Say it out loud
If you want me act now
Come on
Say it out loud
Yeah

I don't care what we do
Can I kick it with you?
Like it hasn't been forever
I don't care what we do
Come and cut me in two
Like I have nothing to hide

We could rule the world
We could lay in bed
Say all of the words we left unsaid

I don't care what we do
Are you feeling it too?
Like it hasn't been forever

Like it hasn't been forever
