We're for the Dark

Badfinger

Tell me the day and I'll set you free
What you wanna be
Show me the way and I'll let you see
What you do to me

Well, it's not enough to live
If you're gonna take, then you have to give
We're for the dark
Baby, you and I

Show me the clouds and I'll give you sky
If you want me to
Show me the crowds and I'll make you sigh
If you take me through

Well, it's not enough to be
If you're gonna look then you have to see
We're for the dark
Baby, you and I, baby, you and I
Baby, you and I, baby, you and I

Show me the way and I'll set you free
What you oughta be
Tell me the day and I'll let you see
What you do to me

Well, it's not enough to live
If you're gonna take then you have to give
We're for the dark
Baby, you and I

Show me the clouds and I'll give you sky
If you want me to
Show me the crowds and I'll make you sigh
If you take me through

Well, it's not enough to be
If you gotta look then you have to see
We're for the dark
Baby, you and I, baby, you and I
Baby, you and I, baby, you and I, baby, you and I
