

Everybody Says

Bag of Toys

Man I tell you baby / Got-ta go and take it
Got-ta keep on pushing / Man you gonna make it
This time, this time, this time you can make it through

I'm taking a bets / That you can't forget
You won't feel hate / Hope you relate
It's the sun and sky shining down on you

Ref: Everybody says / That they know what's best
But how could that be? / Cuz they don't know you
Everybody claims / That they know who to blame
But how can they blame anybody / They haven't a clue

Life can drive you crazy / Things (shit) can end up hazy
Dreams can often Vanish / Leave you sitting lazy
But man i know, i know you can make it through

I'm here to try / To help you on this ride
Just takes some time / Set free in your mind /
It's just that something out here wants to see you through

Ref:

I'm sitting round waiting for / you...to heal your mind
If you need someone then baby, I'll sit with you
I'm hanging round waiting for / (you to) feel just fine
If you need someone then baby, I'll sit with you

(solo area)
