

## Alligator

Ball Park Music

An alligator in my yard  
Avoid her eyes it isn't hard  
To speculate where she has been  
Through all the seas and now is she  
A million years the same old shit  
And here we are to ruin it

She hides so well and slides out of the mud  
Rolling around I'd never seen so much blood  
Before we could talk we were halfway up the sky  
With you and your friend and that guy there and I

Ignore the signs and feed the birds  
Do what you want they're only words  
Of all the things that have occurred  
Here we are to ruin it

She hides so well and slides out of the mud  
Rolling around I'd never seen so much blood  
Before we could talk we were halfway up the sky  
With you and your friend and that guy there and I
