

# Waterfall

**Bananarama**

I just took a bite  
From your sweet mouth  
Starburst bright  
Falling to the ground

The grass is green  
Beneath my feet

Can you feel

[Chorus]  
It's like a waterfall coming down  
Your love it just shines through me like the sun

I can feel your touch  
On me skin tight  
Slip and slide  
With me through the night  
Floating free

[Chorus]  
Your kisses fall like flowers over me

[Chorus]
