

Circles

Banaroo

After through many situations.
Even though I know how love works.
Nothing ever goes its pass.
Better forget it.

Told myself never fall again no
Told myself better keep control.
Now I am scared of my own words.
Should I regret it?

Come make my mind blow.
Tell was I asking you to do so?
I can see my body disappearing.
Is it love I'm fearing?

Circles, circles, spin around in circles.
Worlds, turning upside down.
I'll spin in circles.
Circles, spin around in circles.
When my heart was lost and found, whoho.

Hard to say I was here before so.
Hard to say I can send it no more.
You're way to hard to resist.
Better forget it.

Never stop giving what you give me.
Life starts anytime you're with me.
Something to good to exist.
Should I regret it?

Now you make my mind blow.
Tell was I asking you to do so?
I can see my body disappearing.
Is it love I'm fearing?

Circles, circles, spin around in circles.
Worlds, turning upside down.
I'll spin in circles.
Circles, spin around in circles.
When my heart was lost and found.

O, make the feelings grow.
From head down to my throne.
It's so seper true it's you.
You make me lose control, to make me lose control.
You know what you mean to me.

Circles, circles, spin around in circles.
Worlds, turning upside down.
I'll spin in circles.
Circles, spin around in circles.
When my heart was lost and found.

Circles, circles, spin around in circles.
Worlds, turning upside down.
I'll spin in circles.

Circles, spin around in circles.
When my heart was lost and found, whoho.
