

# Heaven's Key

Band of Skulls

See the lightning, hear all the thunder  
What you gonna do?  
Feel the ones and zeros above you  
Now you feeling blue

Watch the ships into the harbor  
Now you're on your own  
When they see your own reflection  
But you'll never gonna

Take my heart or take my hand  
And keep your conscience clear  
Well, I got a feeling it's a burning desire  
And I don't know what it means

So listen, are you looking in hell for heaven's key?  
So listen, are you looking in hell for heaven's key?

All the friends that said they were with you  
Seem to disappear  
Even that most focused of feelings  
Now it's not so clear

How can you just stand beside me  
In my hour of need?  
Well, the second cut is deeper  
So you better let it

Take my heart or take my hand  
And keep your conscience clear  
Well, I got a feeling it's a burning desire  
And I don't know what it means

So listen, are you looking in hell for heaven's key?  
So listen, are you looking in hell for heaven's key?

Take my heart or take my hand  
And keep your conscience clear  
Well, I got a feeling it's a burning desire  
And I don't know what it means

So listen, are you looking in hell for heaven's key?  
So listen, are you looking in hell for heaven's key?
