## Something

**Band of Skulls** 

Something that you love Something that you hate Everything you're proud of, baby And every mistake All the things you want And everything you give to me Everything you're frightened of To every single year

I just wanna try my best to do it right I'll meet you in the morning I'll meet you every day And I'll meet you in the night Everything is beautiful Everything is good I'll give you everything in the world If you were my girl If you were my girl

Something that you see Something that you want to be Everything you're scared of, baby I want to dismiss Something that you love And everything you hate, yeah Everything you're proud of, baby And every mistake

I just wanna try my best to do it right I'll meet you in the morning I'll meet you every day And I'll meet you in the night Everything is beautiful Everything is good I'll give you everything in the world If you were my girl If you were my girl
