

Be The One

Bang

Every night I lay awake
I Think of you
Another night it's getting late
What can I do?
You don't have to be the one, guarantee!
Just be the one I need
Just be the one I need

In the morning when your gone
I think of you
Finding you took so long
What can I do?

You don't have to be the one, guarantee
Just be the one I need
Just be the one I need

Every night I lay awake
I Think of you!
There's so much that I can take
What can I do?

You don't have to be the one, guarantee
Just be the one I need
Be the one, I need!
