

Middle Of The Night

Bang

In the middle of the night
As I lay here without you
My empty heart, it tells me
It's been to long... it's been so long
Since you've been gone

I
N the middle of the night
The worlds all around me
This empty room it tells me
It's been to long It's been so long
Since you've been gone!

The time it's here, to be sincere
Listen to me Girl, I'm making it clear
We need each other, I LOVE You!
