

A Very Special Love Song

Barbara Mandrell

Babe, somewhere I know I'm gonna find it, babe.
It'll have my love behind it.
And it will be a symphony of all you mean to me.
A Very Special Love Song

And babe, if there's a way you know I'm gonna say it babe,
If there's a melody I'll play it.
I'll play it through especially for you and all the words are true.
A Very Special Love Song

So don't be surprised if you're sittin' alone and you hear it.
'Cause I'm goin' to sing it to the whole big lonely world.
So turn your radio way down low and get near it.
And I'll tell the world I love you, girl.

Babe, if there's an ounce of love I'm gonna give it to you
Babe, if there's a breath of life I'm gonna live it every day for you
And all the whole night through, singin' just for you
