

# I'll Never Stop Loving You

Barbara Mandrell

Goodbye isn't easy to say  
But it's best we say it now  
I'm not right for you anyway  
I don't have the heart to pretend  
Even though I've got to go  
My love for you will never end

I'll miss you, baby please don't cry  
We both saw it through  
Let it end before it dies  
Every day I'll be thinking of you  
Cos the sweetest memories  
Are the ones I made with you

But I'll never stop loving you  
I know me well enough to know it's true  
In time you may find somebody new  
But I'll never stop loving you  
No I'll never stop loving you  
Loving you
