## I'll Never Stop Loving You

## **Barbara Mandrell**

Goodbye isn't easy to say
But it's best we say it now
I'm not right for you anyway
I don't have the heart to pretend
Even though I've got to go
My love for you will never end

I'll miss you, baby please don't cry We both saw it through Let it end before it dies Every day I'll be thinking of you Cos the sweetest memories Are the ones I made with you

But I'll never stop loving you
I know me well enough to know it's true
In time you may find somebody new
But I'll never stop loving you
No I'll never stop loving you
Loving you
