## Love Takes A Long Time To Die

## Barbara Mandrell

It's not over when you stop crying and it's the end when you sa y goodbye And it's not finally done when you just walk away from someone Cause love takes a long time it takes such a long time to die There'll be times when you're alone you'll softly speak her nam e Each one's just about left you one time Daydreaming through the glass you'll see pictures from the past Cause love takes a long time it takes such a long time to die It's so hard to shut the door when mem'ries won't stay behind They'll come around to remind you there's love still locked ins ide

So it's not over when you stop crying...
