

In the Night

Barcelona

Worn out tired verse
Blackened over time and time is running out
Will there be enough?
Sit down and behave
A sorry orphan for your love

In the night I'm a liar
I lie with you
In the night I'm the worst kind
Tell the truth
But tonight, I'll be quiet
Quiet for you

Ooh, never gonna hold you back
Stay here, even when the good gone bad
A real love won't listen to your plans
My dear, only wanna hold you
Never gonna hold you back, back, back, back
Never gonna hold you back, back, back, back

Perfect in your place
Did you know the score before I came along?
Calm down, little one
Clean your dirty face
We know it's love you hate to lose

In the night I'm a liar
I lie with you
In the night I'm the worst kind
Tell the truth
But tonight, I'll be quiet
Quiet for you

Ooh, never gonna hold you back
Stay here, even when the good gone bad
A real love won't listen to your plans
My dear, only wanna hold you
Never gonna hold you...

In the night I'm a liar
I lie with you
But tonight, I'll be quiet
Quiet for you

Ooh, never gonna hold you back
Stay here, even when the good gone bad
A real love won't listen to your plans
My dear, only wanna hold you
Never gonna hold you back,

Ooh, never gonna hold you back
Stay here, even when the good gone bad
A real love won't listen to your plans
My dear, only wanna hold you
Never gonna hold you back
