

Touch

Barcelona

I've been up all night thinking 'bout you baby
You've been runnin round in my head
Tell me what you like, I can give it to you
We can start right here in my bed

Start by closing your eyes, baby it's easy
I can ease your mind if you will let me
Let me touch you right, give you my everything
Everything you ain't got time, baby believe me

Take my hand, kiss me
I'll kiss your back, just breathe
I don't wanna wait another day
I wanna drive you crazy

When you feel my hand, just breathe
On the small of your back, come with me
I don't wanna wait another day
I wanna drive you crazy

In my past I loved but I'll touch you baby
Like a thief in the night, I'm bad
But this cold cold heart has a new beginning
What I take I will give you right back

Start by closing your eyes, baby it's easy
I can ease your mind if you will let me
Let me touch you right, give you my everything
Everything you ain't got time, baby believe me

Take my hand, kiss me
I'll kiss your back, just breathe
I don't wanna wait another day
I wanna drive you crazy

When you feel my hand, just breathe
On the small of your back, come with me
I don't wanna wait another day
I wanna drive you crazy

Pick it up, pick up just a little bit more
Baby tell me what you're waiting for
Pick it up, pick up just a little bit more
I'll give to you, because I want you more

Let me touch you baby [x4]

Take my hand
I'll kiss your back
I don't wanna wait another day

When you feel my hand
On the small of your back
I don't wanna wait another day
