

## On The Lookout

## Barenaked Ladies

Roll this one from the top

On the lookout  
The wind stopped  
We chose this spot  
To begin

When we looked out  
The waves crashed  
Smashing our past  
Moving fast  
Nothing Lasts  
Make it last

This all will pass  
Just like us  
Just like this spot  
Don't miss this  
We've only got one shot

Hold on this rock face  
It's dried and cracked  
But grab on  
Don't wait long  
Longing to  
Look out for you

This all will pass  
Just like us  
Just like this spot  
Don't miss this  
We've only got one shot

On the lookout  
On the lookout  
On the lookout
