Marching Song

Barney

Oh when our band begins to play Oh when our band begins to play We love to march to the music When our band begins to play

Oh when our band begins to march Oh when our band begins to march We love to march to the music When our band begins to play

Oh when our band begins to play Oh when our band begins to play We love to march to the music When our band begins to play

We love to march to the music When our band begins to play
