

Black Holes In My Brain

Barry Adamson

You can get me in her offer
i got some black holes in my brain
give me a hug give me your love
i got some black holes in my brain
give the stuff, give me some love
i got some black holes in my brain
ain't it enough,
i got some black holes in my brain

If i sew my couture just to act kind of cool
i got some black holes in my brain
nobody move like ...fool
i got some black holes in my brain
I just screw along with you
i got some black holes in my brain
i pull up a few and then I...
i got some black holes in my brain

Come over forget about all you know
you can't blame the weather
the brighten up along to go
fly over i bring a few..sounds
so everybody hears the.. sees..way down to..

Black holes in my brain
Black holes in my brain
Black holes in my brain
Black holes in my brain

The black holes in my brain
The black holes in my brain
The black holes in my brain
The black holes in my brain
The black holes in my brain
The black holes in my brain
The black holes in my brain
The black holes in my brain
The black holes in my brain
The black holes in my brain
The black holes in my brain
The black holes in my brain

Come over forget about who you know
'cause alone gone
knocking the snap of the street
was to do my thing
you gonna feel my love, my love

Black holes in my brain
Black holes in my brain
Black holes in my brain
Black holes in my brain
